

**Our Senior School will offer the finest facilities in the North East enabling us to deliver an outstanding 21<sup>st</sup> Century education.**

**We are building a new state-of-the-art architecturally inspiring three-storey building alongside the existing Victorian building which is being remodelled.**

**All our spacious teaching rooms will include interactive touch screen displays for seamless teaching and learning.**

**There will be teaching rooms fitted with moveable partitions to create double sized rooms for increased collaboration and flexible teaching and learning.**

**Our Textiles Studio will be one of four fully equipped Art Studios providing superb space and resources for artistic endeavour.**

**A fully equipped Fitness Suite will form part of our PE facilities which will also include two full sized Sports Halls, four outdoor hardcourts and a games field.**

**Our Learning Resources Centre will be a superb facility for independent research and study and will support the academic ethos of the School.**

**Our Science Demonstration Area, along with the Science Studio and roof top Science Terrace, will support our seven state-of-the-art Science Laboratories.**

**A Performing Arts venue fitted with professional-standard sound and lighting equipment will create infinite opportunities.**

**Wide corridors allowing easy movement around the School as well as breakout spaces for flexible teaching and learning.**

**A restaurant style dining area with brand new kitchen facilities will make for a first class dining experience for our girls.**

**The Reception area will be remodelled to make it open and welcoming for visitors to Newcastle High.**
